SAIE BARI: INNOVATION AND SUSTAINABILITY FOR THE CONSTRUCTION INDUSTRY

SAIE is the trade fair recognized by the market as **the place where companies and professionals meet** to share ideas and discuss useful news for the entire construction supply chain: building and plant engineering.

A unique event for the sector, which consolidates its position as a priority event for operators thanks to the annual alternation between two strongly attractive Italian hubs such as Bari and Bologna.

The community of exhibitors, visitors, associations, and institutions, after active participation in the first three editions in Bari, identified SAIE as the fair where live matching of supply and demand for the market could be concretely fostered.

Participating in SAIE Bari 2025 means being a key player in **an event located in the heart of a highly receptive area** that is growing significantly with substantial investment in infrastructure and urban development, added to which are the challenges of complying with European standards that require increased structural safety, environmental protection, and compliance with energy efficiency regulations.

Exhibitor sectors

SAIE Digitalisation:

- BIM, Building Information Modelling
- Augmented reality, instruments, systems and applications
- Design, control and management software
- 3D printers, Digital manufacturing, digital platforms
- Instruments for surveying and measurement, drones, geospatial technologies

SAIE Construction:

- SAIE Concrete
- SAIE Windows and Doors
- SAIE Technical Finishes and Colors
- SAIE Machinery and Equipment
- SAIE Aluminium in Building
- Waterproofing, chemicals for construction
- Casing and Insulation
- Construction materials and technologies
- Flooring, cladding and bathroom fixtures
- Site safety
- Industrialised structures and systems

SAIE Plant Engineering:

- Automation, access control systems, anti-burglary systems
- Digital Buildings, Smart Homes and Digital Cities
- Fire-fighting plants and systems
- Solar, photovoltaic and energy production installations
- Electric systems for buildings
- Lighting systems
- Remote building control
- Ventilation, air conditioning and heating systems
- Smart infrastructures

SAIE Services and Media:

- Associations
- Technical and media publications
- Building maintenance and administration
- Consultancy services (professional, technical, financial)
- Design, engineering and architecture firms

WHY EXHIBIT

SAIE Bari is a professional trade fair characterized by an exhibition format designed to effectively promote meetings between the protagonists of the construction system and enhance products and solutions of excellence from the entire supply chain with paths dedicated to the key issues of construction and plant engineering.

The figures of SAIE BARI 2023

* data from SAIE Customer Satisfaction

SAIE exhibitors will be able to:

- Make direct contact with potential customers and generate new leads
- Make their brand known to a particularly receptive market that is looking for innovations
- Meet new business partners, distributors and suppliers
- Consolidate their presence in the territory and develop relationships with the SAIE community
- Present concrete solutions and future-oriented ideas to meet new market challenges

THE SPECIAL INITIATIVES AVAILABLE TO EXHIBITORS

SAIE Bari's special initiatives make for a **dynamic exhibition experience**, allowing visitors to discover key market trends, immerse themselves in companies' real projects and make the most of business activities, concrete product applications, and equipment use with the involvement of suppliers, designers, contractors, and installers.

- INFRASTRUCTURE

€ 3.126,00 all inclusive

SAIE

Bari, 23/25 October 2025

Nuova Fiera del Levante

Lungomare Starita, 4
70132 BARI

The **Nuova Fiera del Levante** is located in an extremely strategic territorial position for the sector because it facilitates access to the markets of Central and Southern Italy and the neighbouring countries of the Mediterranean basin also thanks to daily transport connections with **Greece, Albania and Croatia**. Bari airport offers direct flights to several destinations in the Mediterranean, making it easy access for national and international participants.
